

Don't Say We Didn't Warn You

This short PSA was developed to bring awareness to the need for HIV testing and the growing number of individuals who are infected with HIV in the state of Florida.

Reflection Questions

- How worried are you about HIV? Why or why not?
- How do you think having HIV affects a person's life?
- How would your life change if you were to become infected with HIV?
- How might using alcohol or drugs affect your risk of getting infected with HIV?
- How might you talk to a partner about HIV?
- Have you ever put yourself at risk for HIV infection? Reflect on past behaviors that might have put you at risk.
- When do you think a person should get an HIV test?
