

To schedule an appointment for an abortion, please call (800) 230-PLAN (7526) or online at: www.ppkeystone.org

Before Your Appointment *The Abortion Control Act (1989) - requires that anyone having an abortion in PA has an information session with a doctor prior to their abortion. For more information: www.gutmacher.org/fact-sheet/state-facts-about-abortion-pennsylvania

- All patients are required by the Commonwealth of Pennsylvania* to attend an information session at least 24 hours prior to the abortion.
- This session must take place **no less than 24 hours before the abortion**, but can be scheduled more than 24 hours ahead of time. This session can be completed during an audio phone visit, or in-person. Non-English and non-Spanish speaking patients, as well as those needing ASL interpretation have the option to complete the consent in-person at a health center or virtually via telehealth with interpretation.
- The doctor cannot provide an abortion to a patient who has not completed this requirement.
- Please note: If you are **UNDER 18**, you must do your information session in person at a health center with a parent or legal guardian to sign for consent. The **same** parent or guardian must accompany you to your procedure. If this is not possible, **judicial bypass** is available. If seeking judicial bypass, please ask one of our staff for more information.

Preparing for Your Appointment

On the day of your abortion:

- **Bring your photo ID:** current, unexpired photo identification with your picture and date of birth is required. Accepted forms of ID include Driver's License, State ID, Passport, Military ID, or Visa with photo.
- Patients under 18 **MUST** have a parent or legal guardian present with picture ID and documentation identifying their relationship to you (e.g., birth certificate). This must be the **same** parent or legal guardian that attended the information session at least 24 hours prior to this appointment.
- Wear **comfortable clothing and underwear** that can support a pad.
- Prepare to be in the center for about **2 to 4 hours** on average.
 - We suggest you **bring a book** or a **small handheld device/smartphone** with a **charger and headphones**.
- You may bring a support person to accompany you to your visit and who may be able to participate in some of your care.
- Everyone must wear a surgical mask upon entering the health center. If you do not have one, we will provide you with one.
- Make arrangements for childcare if necessary; **children are not allowed in the center**.
- Give yourself time to find parking and check in. Parking recommendations per location are below.
- **Please eat** prior to your appointment: we suggest that you **have a light meal** before you come to the center. We also recommend that you **bring a water bottle and light snacks** to have while you wait.
- Please note: no video (chatting or recording) is allowed. This is to ensure the privacy of all patients and staff.

Procedural Abortion (local anesthesia only) [Visit our website for more information](#)

What to Expect:

- You will get any recommended labs/ultrasound, an education session, and birth control consultation (if desired) before seeing the doctor.
- You will receive an antibiotic and ibuprofen, as well as a medicine injected into the cervix to help decrease any discomfort.
- You will be awake and can expect cramping during your procedure. The procedure takes about 5-10 minutes. The doctor will confirm the procedure is complete. Afterwards you will spend a short period of time in the post-procedure room before being able to go home.

Abortion by Pill (Medication Abortion) [Visit our website for more information](#)

What to Expect in the Center:

- You will get any recommended labs/ultrasound, an education session, and birth control consultation (if desired) before seeing the doctor.
- You will be given medications to end the pregnancy and empty the uterus. We'll review when and how to take these medications.

What to Expect While at Home:

- Cramping and bleeding often start 2 to 4 hours after you take the second set of the medications. This is how the pregnancy passes. It can last for several hours and it is heaviest when the pregnancy comes out.
- The pregnancy is very small. You may or may not see it, depending on how many weeks the pregnancy is. The cramping and bleeding will slow down after you pass the pregnancy.
- You will need to make sure the procedure worked. You can either take an at home pregnancy test **5 weeks after your appointment** (and can opt to get a reminder call for this) or you can return to one of our centers for lab work or an ultrasound **one to two weeks after** your appointment.

Payment Information

- **Procedure costs are listed below.** Prices include all tests, labs, consultation, and medications. Payment is **due in full on arrival** on the day of the appointment in cash, credit/debit cards (Visa, MasterCard, or Discover), or a money order. No checks. **If you are using someone else's credit/debit card**, that person must be present at your appointment with **ID matching the name on the card.**
- If you would like to hear about **financial assistance**, call us at 610-871-7200, Option 1, Option 1 again. If you qualify for assistance, these discounts will only apply if you have the procedure.
- Quoted costs are based on information you have provided to determine if you are eligible for funding. These costs are subject to change at the time of your appointment based on procedure type and the gestational age of pregnancy confirmed by ultrasound.
- If you suspect, or it is determined, that you are having a miscarriage, our clinicians and staff can take care of you. Depending on the care needed, fees may be comparable to those listed below. You may be able to use your insurance for this care.

Ultrasound only (if completed but no procedure)	\$175
Abortion by pill (5-11 weeks)	\$625
Procedural Abortion (5-11.6 weeks)	\$625
Procedural Abortion (12-13.6 weeks)	\$675
Procedural Abortion (14-15.6 weeks) AVAILABLE IN ALLENTOWN AND YORK ONLY	\$775

- **We accept some insurances**, and it is possible they may pay for part or all of your procedure. However, your insurance **must be verified prior to your appointment.** Please inform us that you'd like to use your insurance when you schedule your appointment to confirm coverage and expected payment.
- PA Medicaid will cover the cost of a Procedural abortion **only** in the case of rape, incest or threat to life. Please **notify us if this applies** to you when scheduling your appointment as you and the doctor need to complete additional forms **prior to the procedure.**

Safety and Support

Please be aware that protesters may be present the day of your visit.

- We encourage you to ignore them. If they hand you materials that you don't want, feel free to discard them yourself or give them to one of our staff to discard once entering our center.
- All centers have security staff posted outside. You may be greeted by friendly volunteers wearing pink vests that say "clinic escort volunteers." They are there to support you as you walk into our center.

We're here to help. Please contact us with any questions you may have before your appointment.
