# For Our Patients

Planned Parenthood of Western Pennsylvania provided over **23,000** services in FY 2022.

"The nurse was phenomenal! She listened really well and gave me really great advice. I wish I could go to Planned Parenthood for all of my health care!"

"I am always blown away by the doctors at Planned Parenthood. They are truly the best, and my doctor at this visit was no exception. Treated me with so much respect. Spent time explaining everything and giving me great advice."

"The most amazing experience I've ever had at any appointment. Kind, considerate, and inclusive staff kept me well informed throughout the entire time I was in the office."

"I have never had a better experience in a medical setting."

# We Are...

# Resilient

This year, we confronted the biggest challenge to our movement, the United States Supreme Court overturning *Roe v. Wade*. Since the June 24 decision, 24 states have banned abortion or are attempting to do so.

This decision impacts all of us, but those confronted with societal barriers have been and will continue to be affected most. Historically, Black and Brown people, as well as LGBTQIA+ people, face the most significant barriers when accessing reproductive health care. For these communities, the legal right to abortion has never been enough to guarantee access.

While the team at Planned Parenthood of Western Pennsylvania (PPWP) knew this could be our reality following the leaked opinion, the confirmation of a post-*Roe* world has been an organizational-wide adjustment. In consultation with our staff, providers, other Planned Parenthood affiliates, and allies, PPWP met the challenge by providing abortion care to over 3,000 patients who sought our services.

Although abortion is still legal in Pennsylvania, we will fight with everything we have to ensure all people are provided with the sexual and reproductive health care and access they need to control their body, their life, and their future!

# Community

The outpouring of support we have seen for our mission and our patients has been inspiring. This past year has shown us that we all play a part in lifting up our community.

**We strengthened** our partnerships with local non-profit organizations such as 412 Food Rescue, the Squirrel Hill Food Pantry, Eco Socialist, and PGH Mutual AID to provide food pantries that offer free non-perishable food, bathroom, and sanitation items at multiple PPWP locations.

**We partnered** with organizations like SisTers Pgh, True T Pgh, and TransYOUuniting to create an HIV and PreP outreach and awareness campaign for the BIPOC cis and transgender community in the greater Pittsburgh region.

**We rallied** with the Women's March Pittsburgh to recruit speakers and volunteers for the March for Reproductive Freedom following the Roe v. Wade decision.

**We united** with the faith community to educate, activate, and inform congregations across Pittsburgh of the consequences of overturning Roe v. Wade.

*PPWP will continue to partner with organizations to uplift our patients and the communities we serve.*

# We Are...

# Health Care

Planned Parenthood of Western Pennsylvania unequivocally believes in and will stand by individuals' right to self-determination and bodily autonomy. As a provider of sexual and reproductive health care, we will never stop working to provide our patients with the health care they need to exercise their rights in a way that is safe and medically accurate.

This year has presented us with a number of challenges, including the continuation of the COVID-19 pandemic and ending with the overturning of *Roe v. Wade*. Nevertheless, all six of our family planning clinics in western Pennsylvania have continued to provide essential care, further proving our staff's love and dedication to our patients, our mission, and our community members.

Every day, patients look to us to provide non-judgemental and accessible health care services, including STI testing & treatment, birth control, emergency contraception, life-saving cancer screenings, influenza and HPV vaccines, PrEP, gender-affirming hormone therapy, pregnancy testing, options, and much more! We were able to expand access this year by growing our family planning telemedicine services, which has been a great remote option for patients who don't always have the means to travel to our centers.

We are passionate about sexual and reproductive health care, and our doors will always remain open to provide care to the communities we serve.

**Planned Parenthood**  
Care. No matter what.  
Planned Parenthood of Western Pennsylvania

# Education

In the 2022 fiscal year, PPWP's Education Department provided comprehensive sex education to more than 10,000 young people and parents through school programs, community groups, health fairs, and community outreach efforts.

Our Peer Education Program taught more than 1,200 Life Skills sessions to youth in participating schools and organizations. In addition, we successfully educated 200 middle and high school students who participated in our weekly Peer Helpers program, where they receive long-term, intensive education in sexual health topics and are trained to act as a resource to their peers.

After a brief closure due to the pandemic, in March of 2022, the Hazelwood Youth Drop-In center reopened to the community. Our Youth Drop-In Center serves the Hazelwood community by providing information about reproductive health and other social service resources. To engage youth, the Drop-in Center holds monthly events and offers a safe and affirming space for participants to be their authentic selves.

# The Future

As we reflect on the past year, we are proud of PPWP's accomplishments during these unprecedented times. We continued to provide care to our patients while operating during a global pandemic and the overturning of Roe v. Wade. While many facets of our organization and movement changed in those 12 months, our core mission remained resolute thanks to the hard work and dedication of our staff, community partners, and supporters.

As we look to the future, there is much on the horizon. PPWP will undergo a strategic planning process designed to help us identify and address the following issues:

- How we envision our world, and the role we want to play in creating it.
- How we target, identify, and center racial justice and health equity in our clinical and programmatic work.
- The structural and operational changes needed to strengthen, sustain, and grow our organization, and to accomplish our mission.
- The future direction for PPWP in the next three years.

We look forward to embarking on this process and sharing our progress with all of you!

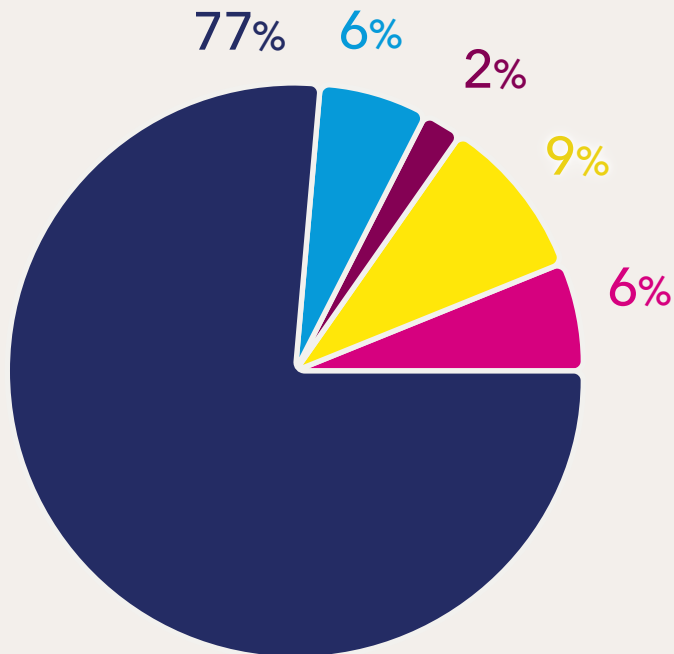

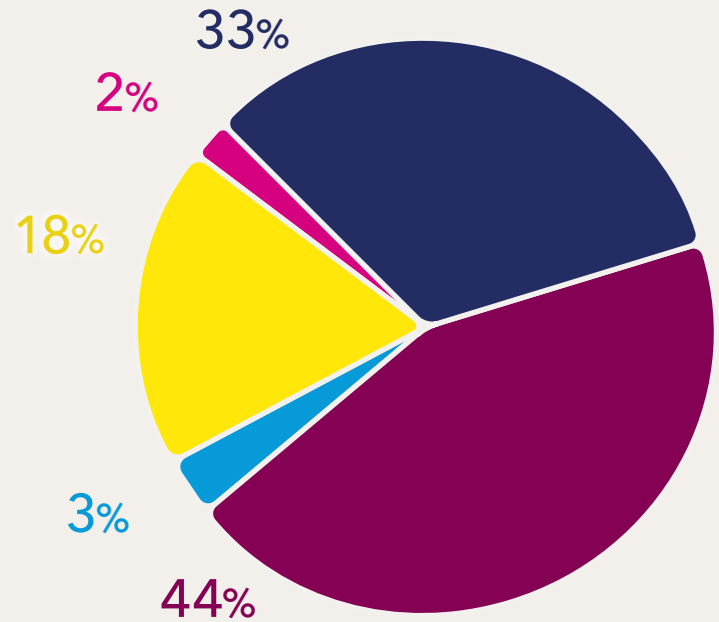

# We Are...

# Dedicated

During our 2021-2022 fiscal year, PPWP's fiscal health remained strong. Revenue from **patient care**, **contributed income**, **event fundraising**, and **government grants** ensured that access to high-quality preventive and reproductive health care and sexuality education was provided to communities throughout the region. These investments in our organization make all this possible.

During our 2021-2022 fiscal year, PPWP took the utmost care with our earned revenue and contributed income to provide and support high-quality, affordable reproductive **health care** and **education** across western Pennsylvania. Our **administrative efforts** also supported our **public outreach** and **development** programs in our communities.

# We Are Grateful

PPWP stands by our promise to “**Care. No matter what.**” Our health centers provide high-quality, supportive sexual and reproductive health care, education, and advocacy. We strive to increase access to care and ensure everyone can make decisions about their own bodies, lives, and futures.

Thank you to our donors for their commitment to this work and their generous support!
