

## Notice of Good Faith Estimate

You have the right to receive a “Good Faith Estimate” explaining how much your medical care will cost.

Under the law, health care providers need to give patients who do not have insurance or who are not using insurance an estimate of the bill for medical items and services.

- You have the right to receive a Good Faith Estimate for the total expected cost of any health care items or services upon request or when scheduling your appointment. This includes related costs like medical tests, prescription drugs, and medical services.
- If you schedule your appointment at least three business days in advance, we will give you a Good Faith Estimate in writing within one business day after scheduling. If you schedule your service at least ten days in advance, we will give you a Good Faith Estimate in writing within three business days after the appointment is scheduled. You can also ask us for a Good Faith Estimate before you schedule your appointment, which we will provide within three business days.
- If you receive a bill that is at least \$400 more than your Good Faith Estimate, you can dispute the bill.
- Make sure to save a copy or picture of your Good Faith Estimate and bill.
